

AUTAUGA COUNTY, ALABAMA

PERMIT NUMBER: _____

The undersigned hereby makes application for a permit to develop in a designated Flood Hazard Area (100 Year Floodplain). The work to be performed is described below and in attachments hereto. The undersigned agrees that all such work shall be done in accordance with the requirements of the Flood Damage Prevention Ordinance of **Autauga County, Alabama** and with all other applicable Federal, State, and local regulations.

Owner or Authorized Agent's Name: _____

Builder/Contractor's Name: _____

Address: _____

Phone and Fax Numbers: _____

Site Location (include GPS coordinates) _____

TO BE COMPLETED BY APPLICANT:

Section A. Description of Work (Check Appropriate Item(s)):

1. Proposed Development Description:

- Alteration or Repair
- Filling
- Relocation
- Grading
- New Construction
- Manufactured (Mobile)
- Home Installation
- Dredging
- Subdivision
- Water Course Alteration
- Other (Describe)

2. Type of Construction:

- Accessory Structure
- Addition
- Demolition
- Non-residential
- Improvement (to existing structure)
- Residential
- Temporary-Structure
- Other-(Describe)

3. Comments:

4. **NOTE:** Applicant understands and agrees that: This permit is issued on the conditions and facts described; any permit may be repealed if conditions or facts change; permit void if the activity has not begun within 180 days of the issuance date; and the permit will remain valid for one year from date of issuance.

Section B. Alterations, Additions, or Improvements to and existing structure: (ONLY)

1. What is the estimated market value of the existing structure? \$ _____
2. What is the estimated cost of the proposed construction? \$ _____
3. If the cumulative cost of the proposed construction in conjunction with any previous improvements during a ten year rolling period equals or exceeds 50 percent of the market value of the structure then the substantial improvement/damage requirements apply. (Complete Substantial Improvement/Damage Certification forms).

Section C. Site Identification:

1. Is the proposed development in an identified floodway? Yes No
2. If in a floodway, has a "No Rise" Certification been completed and attached? Yes No
3. What flood zone and panel number appear on the Flood Insurance Rate Map (FIRM) or Flood Hazard Boundary Map (FHBM) in the proposed development area? _____ **Zone** _____ **Panel Number**
4. What is the Base Flood Elevation (BFE) at the site? _____ Feet above Mean Sea Level (M.S.L.)
5. What is the required lowest floor Elevation (Including Basement)? _____ M.S.L.
6. What is the elevation to which all attendant utilities, including all heating and electrical equipment will be Installed or floodproofed? _____ Feet above Mean Sea Level (M.S.L.)
7. If the structure is floodproofed, the required floodproofing elevation is _____ Feet/foot above M.S.L.
8. Will the proposed development require alteration of any water course? Yes No

Section D. Non-Residential Construction:

1. Type of flood protection used? (Check appropriate items) Floodproofing Elevation

NOTE: Appropriate, current FEMA Form Required.

Section E. Subdivision:

1. Does this subdivision or other development contain 50 lots or 5 acres (whichever is less)? Yes No
2. If yes, has flood elevation data been provided by the developer? Yes No

NOTE: Elevation data must be provided, by the developer, if the subdivision lies within the SFHA where no flood elevation data currently exists (e.g. Zone A, or un-numbered A zone).

Section F. Administrative:

1. The applicant understands that an on-site inspection is required at the time of completion of the lowest floor and/or lowest horizontal supporting member is in place.
2. At the time of inspection a certified **Elevation Certificate** using a current FEMA 81-31 is required to be on-site and the original on file in the Floodplain Administrator Office.
3. If for any reason elevation does not comply with the required height above Base Flood Elevation (BFE) alterations will be required to be made before continuing construction.
4. A final inspection is required on the structure after the building is completed and ready for occupancy. The benchmark is to be left on site until the development is completed at that location.
5. Provide "As Built" Floodproofing certification by a registered professional engineer, if required.
6. Applicant is responsible for acquiring (**required and approved**) Local, State, and/or Federal permits prior to the start of construction.
7. Comments: (Attach additional comments if necessary) _____

Section G. Attachments: (Check and provide all that apply)

- Building plans
- Site plan required showing buildings and improvements, flood zones, and Base Flood Elevations
- Completed FEMA Elevation Certificate
- Building floodproofing (FEMA Floodproofing Certificate required) plans certified by a registered architect or professional engineer (Required for non-residential dry floodproofing in lieu of Elevation Certificate).
- An "approximate" zone elevation determination by a professional land surveyor or registered professional engineer and submitted on a FEMA Elevation Certificate (Required for developments that contain 50 lots or 5 acres, whichever is less, where no Base Flood Elevation has been determined).
- "No-Rise/No-Impact" certification by registered professional engineer (Required for development in floodway to include hydraulic and hydrologic analyses supported and submitted on FEMA Form MT-2).

I, the undersigned, understand that I must comply with the Autauga County, Alabama, Flood Damage Prevention Ordinance (Resolution) and all applicable Local, State, and FEMA regulations. In addition, permanent electrical service will not be energized until all provisions are compliant.
